

Armrest Friction 6-ways

Armrest Friction 6-ways

Armrest Friction 6-ways is an armrest built for work environments where controls and joysticks are mounted in the armrest.

The armrest has 6 different adjustments. Each function is quickly and easily adjusted.

This is of great importance when several drivers use the same equipment during different shifts.

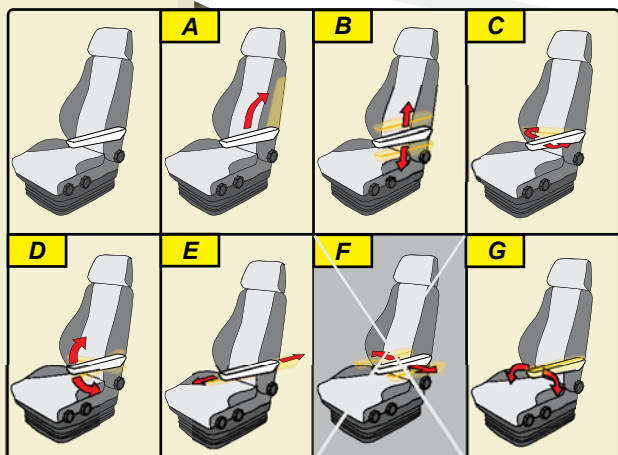

Armrest Friction 6-ways comes with MT/EHC controlholder included.

6015.00 Armrest Friction 6-ways

The illustrated armrest was fitted using 6000.40 mounting kit, an optional extra.

- A. The armrest is hinged
